

The following article was taken from Regional Federal Credit Union's newsletter for Winter 2004:

### **An RFCU Branch Is Closer Than You Think**

Credit Union Service Centers, available to all RFCU members, offer the convenience of credit union services while eliminating the inconvenience of traveling further than necessary to reach either of our branches.

Since service centers may be located closer to your home, your work, or your child's school, you may be able to save yourself the time and frustration of having to travel out of your way to take care of your financial obligations.

Look for service centers near you by checking out the map or look for a credit union that may say *Credit Union Service Center*. Tech Federal Credit Union and Inland Employee's Credit Union are also RFCU service centers. That means all their locations are open for RFCU members to use.

Plus most Credit Union Service Centers offer extended business and holiday hours. Visit [www.creditunion.net](http://www.creditunion.net) to locate a Credit Union Service Center in your area or across the country.
